Services are easily accessible through our web portal, mobile app, or by phone, and provider lawyers respond within 8 hour or less for non-emergencies.  IDShield | IDShield Plan

Every year, millions of people become victims of identity theft. When cyber criminals strike, it's hard to know what to do or where to turn. IDShield monitors participants' Personally Identifiable Information ("PII") from all angles. In the event of identity theft, we restore the participant's identity to its pre-theft status. Our online privacy and reputation management services help participants shield their personal data, keeping it away from unwanted hands and eyes.
